Dear Mrs. Kmeťová,

I would like to congratulate you on those events, recently organized in an extremely professional way by Top Events, where I was invited to participate. In my view, your initiative "Welcome in Europe" for business managers was without doubt a very useful and interesting event and the "Smart" project before the EU referendum was particularly effective.

I was, however, especially impressed by the idea of "Maľujeme Srdcom" (painting by heart). In fact as a result of participating in this initiative, the organizers pushed me to produce my first two paintings.

Allow me, therefore, to wish you success in your further endeavours. You deserve it.

Yours sincerely,

Eric van der Linden
